Stock markets advance for 2nd day on buying in L&T; Sensex gains 144 points

JULY 30:Benchmark stock indices Sensex and Nifty closed higher on Wednesday driven by heavy buying in infrastructure major Larsen & Toubro.

Rising for the second day, the 30-share BSE Sensex climbed 143.91 points or 0.18 per cent to settle at 81,481.86. During the day, the barometer moved in a narrow range and rose by 281.01 points or 0.34 per cent to hit a high of 81,618.96.

The 50-share NSE Nifty rose by 33.95 points or 0.14 per cent to close at 24,855.05.

US trade deal uncertainty and foreign fund outflows restricted the gains to a large extent, analysts said.

Among Sensex firms, Larsen & Toubro jumped 4.87 per cent after the infrastructure major reported a 29.8 per cent rise in consolidated net profit at Rs 3,617.19 crore during the June quarter, driven by strong overseas order growth.

Sun Pharma, NTPC, Maruti. Bharti Airtel. Trent and Axis Bank were also among the gainers.

Tata Motors was the biggest loser among Sensex stocks, dropping by 3.47 per cent amid reports that the auto maker was in advanced talks to acquire the truck division of an Italian company in a USD 4.5 billion deal.

Stock exchanges have sought clarification from the company related to the reports.

"Tata Motors is down amid concerns linked to its acquisition of an Italian company," Gaurav Garg, Analyst, Lemonn Trump has said the trade Markets Desk, said.

ended the session marginally positive after a range-bound trade, despite ongoing uncertainty around the delayed India-US trade agreement and mixed earnings.

'The investors turned more stock/sector specific based on the Q1 results; the industrial segment gained momentum after robust earnings from L&T. The auto sector underperformed, largely due to tariff-related pressures. Investors are now focusing on the US Fed's policy meeting, as its stance on rates and inflation could shape global sentiment," Vinod Nair, Head of Research, Geojit Invest-

ments Limited, said. Foreign Institutional Investors (FIIs) offloaded equities worth Rs 4,636.60 crore on Tuesday, according to ex-

change data. US President Donald Ajit Mishra - SVP, Redeal with India is not fi- Ltd, said.

BSE Midcap and Smallcap indices climbed 0.17 per cent each.

Among BSE sectoral indices, industrials jumped 1.31 per cent, followed by teck (0.35 per cent), BSE Focused IT (0.31 per cent), IT (0.30 per cent), capital goods (0.27 per cent) and commodities (0.26 per cent).

Realty dropped 0.99 per cent, services declined 0.75 per cent, metal (0.16 per cent), consumer discretionary (0.14 per cent).

In Asian markets, Japan's Nikkei 225 index and Hong Kong's Hang Seng settled lower while South Korea's Kospi and Shanghai's SSE Composite index ended in positive territory.

European markets were quoting on a mixed note. The US markets ended lower on Tuesday. Global oil benchmark

Brent crude declined 0.44 per cent to USD 72.19 a barrel. On Tuesday, the Sensex

jumped 446.93 points or 0.55 per cent to settle at 81,337.95. The Nifty climbed 140.20 points or 0.57 per cent to 24,821.10.

IndiGo registers 20% decline in Q1-FY26 net profits, passengers increase 12% NEW

JULY 30:InterGlobe Aviation Limited, which operates airline IndiGo, Wednesday on announced a consolidated net profit of Rs 2,176 crore during the first quarter of 2025-26, despite a turbulent operating environment influenced by geopolitical tensions, airspace restrictions, and a tragic aviation accident in Ahmedabad.

The carrier registered about 12 per cent yearon-year growth in passenger volumes, carrying 3.1 crore passengers during the April-June 2025 quarter, showcasing resilient demand even as yields declined by 5 per cent to Rs 4.98 per km and load factor dipped by

2.1 points to 84.6 per

cent.

Laxmi India Finance IPO subscribed

NEW DELHI. JULY 30:The initial public offer of Laxmi India Finance had ben subscribed 88 percent on its second day of public bidding (July 30). Retail investors took the lead, fully booking the portion

The Rs 254 crore maiden public issue of the company received bids for nearly 1 crore shares, as against the offer size of 1.13 crore shares, according to data on Investorgain. Non Institutional Investors (NII) have booked 52 percent of their reserved portion, while that kept for Qualified Institutional Buyers (QIBs) has been subscribed 45 percent.

The grey market premium (GMP) continued to decline on the second day of public bidding. The unlisted shares of the company were trading with a $\tilde{G}MP$ of nearly $\tilde{2}$ percent over the IPO price at Rs 161 apiece, according to data in Investorgain. This is lower than the 11 percent GMP cited by the site earlier last week.

India emerges as top smartphone supplier to US, pips China: Canalys

NEW JULY 30:India has emerged as the largest manufacturing hub for smartphones shipped into the US for the first time in Q2, 2025, as China's share shrunk amid tariff negotiations,

grew 38 per cent year-on-year to 8.3 million units.

Motorola continued its expansion in the US, growing two per cent to 3.2 million units. Google and TCL rounded off the top five, with Google

ording to Canaly

The research from Canalys (now part of Omdia) revealed that United States smartphone shipments grew 1 per cent in the second quarter of the current calendar year as vendors continued to frontload device inventories amid tariff concerns.

The uncertain outcome of negotiations with China has accelerated supply chain reorientation, it said.

The share of US smartphone shipments assembled in China fell to 25 per cent in the April-June period, from 61 per cent a year earlier.

"Most of this decline has been picked up by India: the total volume of 'Made-in-India' smartphones grew 240 per cent year-on-year and now accounts for 44 per

ported into the US, up from only 13 per cent of smartphone shipments in Q2 2024," it said. In Q2, iPhone shipments declined 11 per cent year-on-year to 13.3

million units. a correction from the 25 per cent growth in Q1, 2025, as per Canalys. Chaurasia, Principal Analyst at Canalys, said.

Samsung and Startup India ink MoU to boost India's next generation of innovators

tial

NEW DELHI. JULY 30:Samsung, India's largest consumer electronics brand, has signed a strategic Memorandum of Understanding (MoU) with Startup India, a flagship initiative of the Government of India, to empower young innovators from remote corners of India and strengthen the country's startup ecosystem with Samsung Solve for To-

that direction. By bringing together Samsung Solve for Tomorrow's vision and Startup India's expansive ecosystem and network, we aim to nurture the next generation of the change makers from the remote corners of India to become the problem solvers of tomorrow. This collaboration is aligned with Skill India and Digital India initiatives and aims to strengthen the innovation ecosystem in the country," said SP Chun, Corporate Vice President, Samsung Southwest Asia.

"Innovation is the key to growth, unlocking new possibilities, driving progress, and enabling solutions that shape a better future. And, empowering young innovators is central to India's growth story. Through this collaboration between Startup India and Samsung Solve for Tomorrow, we are strengthening our commitment to building an inclusive, innovation-led ecosystem. This partnership will not only encourage youth from Tier 2 and Tier 3 cities to ideate and

dia is a significant step in innovate, but also aligns closely with the vision of Atmanirbhar Bharat. We are happy to see Samsung stepping forward to nurture the entrepreneurial spirit across the country," said Sanjiv, Joint Secretary, Department for Promotion of **Industry and Internal** Trade (DPIIT), Government of India.

Samsung Solve for Tomorrow is a flagship innovation and education initiative designed to foster problem-solving, creativity, and social impact among India's youth. Through this programme, young students are encouraged to identify real-world issues in their communities and work toward building

scalable solutions using design thinking, technology and entrepreneurial skills. The initiative provides mentorship, workshops, prototype development support, and opportunities to pitch ideas to experts and investors.

The new partnership will see Startup India leveraging its extensive network of incubators and accelerators, while Samsung drives onground engagement with students and young innovators through handson learning and innovation challenges. This integrated approach, designed to scale grassroots innovation, will place innovation at the core of India's education and entrepreneurship ecosystems.

This model public-private partnership between Samsung India and Startup India reinforces the shared commitment to the Make in India, Digital India, and Skill India missions—putting young, local innovators at the centre of India's technology and manufacturing-led future.

First launched in the US in 2010, Samsung Solve for Tomorrow is currently operational in 68 countries and has seen over 3 million young people participate worldwide. The 2025 edition offers an incubation programme for the Top 4 winning teams that will receive a grant of INR 1 crore

Additionally, the Top 20 teams will be awarded Rs 20 lakh, while the Top 40 teams will receive Rs 8 lakh.

TCS faces labour ministry scrutiny amidst 12,000 job cuts, hiring delays

CONSULTANCY SERVICES

NEW DELHI. JULY 30:The chief commissioner labour (CLC), under the Union labour ministry, has summoned senior executives of Tata Consultancy Services (TCS) on Friday, August 1, to discuss matters linked to mass layoffs and delays in getting new hires on board.

"There is a meeting on Friday to discuss the matter... Can't comment on any outcome," a ministry official told Moneycontrol

On Sunday, Moneycontrol reported that TCS would trim its workforce by 2 percent, affecting 12,000 jobs, over FY26. "This is not because of AI giving some 20 percent productivity gains. We are not doing that. This is driven by where there is a skill mismatch or where we think that we have not been able to deploy some-

told Moneycontrol.

matter.

NITES termed the layoffs at TCS "inhumane", "unethical" and "outright illegal", and sought an immediate halt to all terminations and the reinstatement of affected employees.

tion Technology Employees Senate (NITES) has written two letters to the office of the CLC in recent days, seeking the ministry's intervention in the

The Nascent Informa-

ally for 10 to 20 years. The email was callously sent on a Sunday evening, without prior notice or any formal communication process in place. This mass layoff is not only unethical and

inhumane; it is outright illegal. TCS has planned to terminate thousands of employees without giving them due notice or any prior intimation to the government, all of

which are mandatory unexisting Indian der labour laws," Harpreet Singh Saluja, president of NITES, said in the letter.

"The IT sector in India employs lakhs of professionals and has been a pillar of our economy. If a company of TCS' scale is allowed to carry out mass layoffs without following due process and without consequences, it will set a dangerous precedent for other companies. It will normalise job insecurity, erode employee rights and severely damage trust in India's employment ecosystem," he added.

A week earlier, on July 22, NITES had asked the ministry to direct TCS to provide an official and time-bound commitment regarding the onboarding of about 600 lateral hires.

morrow. The MoU was signed in New Delhi and brings together Samsung's flagship nationwide innova-

tion contest, Samsung Solve for Tomorrow, and Startup India's robust national ecosystem of incubation, mentorship, and policy support. The collaboration aims to identify and nurture high-potential talent, especially from Tier 2 and Tier 3 cities, by providing access to infrastructure, expert guidance, market linkages, and funding opportunities.

"At Samsung, we believe innovation thrives when young minds are empowered with the right platforms and support systems. Our partnership with Startup In-
